

Summer camp procedures

- All campers will take a temperature check right when they get to the fields
- We will split campers into groups right away and they will be with the same coach all day
- We will encourage as much social distancing as possible while playing
- Camp is held behind the facility on the grass fields
- Please bring enough water for the whole duration of camp.
- Bathrooms are for emergency use only
- Parents- Please only have one parent pickup/drop off and maintain distance of other parents picking up

Please work with and remind your children to practice social distancing. We are all in this together, and it's going to take everyone's help and cooperation to make this session run as smoothly as we all want it to. We are just super excited to get some normalcy back to these kids and get them back on the training field having fun and working hard. We ask our families before heading to training to make sure the kids aren't experiencing any symptoms and also to keep athlete home if they have been around anyone that has been experiencing symptoms in the last two weeks. Thanks!
